CHAPTER I.

EXPLANATION OF THE SYSTEM OF REGISTRATION.

THE present report contains a record of the trade (1) along the chief routes, and (2) of large towns and commercial centres. The statistics relating to the trade external to British India have, under the recent orders of the Government of India, been reported upon separately this year.

2. Under the first head of inland trade is shown:—

- Trade along the Nuddea rivers.
- Trade along the Megna to and from Chittagong.
- Traffic on the Midnapore and Hidgellee canals.
- Traffic on the Orissa canals.
- Traffic along the Calcutta canals.
- River-borne traffic carried by inland steamers.
- Traffic along the Brahmaputra and Megna rivers carried by the steamers of the Eastern Bengal Railway.
- Traffic along the East Indian Railway.
- Traffic along the Eastern Bengal Railway.
- Traffic along the State Railways, namely—
 - (a.) Calcutta and South-Eastern State Railway.
 - (b.) Northern Bengal State Railway.
 - (c.) Nalhati State Railway.
 - (d.) Tirhoot State Railway.
 - (e.) Gya State Railway.

The different sources from which the statistics of trade carried along these routes are obtained by Government have been detailed in previous reports. The acknowledgments of the Lieutenant-Governor are due to the Agents of the India General, and Rivers, Steam Navigation Companies, for the courtesy with which they have always permitted their figures of trade to be used by Government. In the case of the East Indian Railway, the returns are now furnished under the new contract free of cost. Arrangements have been concluded since the close of the year with the Agent, Eastern Bengal Railway, for the supply of statistics of trade carried by the steamers of the Company along the Brahmaputra and Megna rivers; and the statistics for 1880-81 furnished by the Company are published in this report.

3. Under the second head, the registration embraces, as before, the trade of Calcutta, Chittagong, and of Orissa, and there has been no change of system in the collection of these statistics. In a note of suggestions relating to the report for 1878-79, the Secretary of State observed that no valuations were given in the report in regard to the sea-borne trade of Calcutta, and arrangements were therefore made for obtaining this information from the Customs authorities for incorporation in future reports. Complete statements showing the quantities and values of the sea-borne trade of Calcutta for 1880-81 have been published in the appendices attached to this report.

4. The statements of prices of all articles of trade continue to be received from selected districts of Bengal every six months, and from those average prices are determined for the year for statistical purposes.

CHAPTER II.

TRADE ALONG THE CHIEF ROUTES.

TRAFFIC ALONG THE NUDDEA RIVERS.

The total quantity and value of the trade passing the Nuddea rivers were as follows:—

NOTE.—Columns 2, 4, and 6 represent the weights of goods registered by weight only, while columns 3, 5, and 7 show the values of all articles of trade registered during the last three years.

2. Traffic carried along these rivers during the past year shows an increase of 5,24,416 maunds compared with 1879-80, but a decrease of 15,56,215 maunds compared with 1878-79. The Jungypore returns show but little change compared with those of the previous year. The returns of the Nuddea toll-station indicate a decrease of 9,65,040 maunds on those of 1879-80, and 28,37,471 maunds on those of 1878-79, due to the gradual silting up of the Bhoyrub river. Kissengunge station alone shows an increase, the quantity registered being 14,98,889 maunds over the figures of 1879-80, and 11,90,402 maunds over those of 1878-79. This increase is mainly due to the Matabhanga river being now navigable throughout the year. Of all staples the traffic in wheat showed the largest increase, namely 10,19,665 maunds as compared with 1879-80, and 11,88,454 maunds as compared with 1878-79. The articles in which the decrease was most marked are jute and gunnies, hides, saltpetre, and other saline substances, miscellaneous oil-seeds, sugar and timber.

3. The total number of loaded boats of which the cargoes were registered on the Nuddea rivers during the past three years, was—

* Piece-goods, mats, and manufactures of silk, are shown according to values in rupees.

† Gunny-bags, gunny-cloths, and hides are shown according to number.

6. *Jute, raw*.—The quantity registered during the past year was 9,47,031 maunds, against 13,06,790 maunds in 1879-80 and 14,79,980 maunds in 1878-79. The decrease is primarily due to the completion of the Northern Bengal State Railway. The amount of jute sent by the Nuddea rivers last year to Calcutta was 7,51,163 maunds, and to Bhuddressur 1,87,723 maunds. The Bhuddressur supply was, as usual, obtained from Doolalguage, in Purneah.

7. *Gunny-bags and cloth*.—The total trade under hand-made gunnies registered during the past three years was—

			1878-79.	1879-80.	1880-81.
Gunny-bags No.	6,580,638	3,910,780	1,672,225
Gunny-cloth Pieces	316,981	331,691	611,041

8. If the pieces of gunny-cloth (locally called "chutty," each piece measuring 5 feet long and $1\frac{1}{4}$ feet wide) are converted into bags at the rate of two pieces per bag, the grand total of the year's traffic amounts to 1,977,745 bags, against 4,106,625 bags in 1879-80 and 6,739,128 bags in 1878-79. The Calcutta consignment during the past year was 1,496,156 bags, while, the balance of 481,587 bags was distributed as follows:—Bhuddressur 425,125 bags, from Dulalguage; Jungypore 27,925 bags, from Maldah and Rajshahye; Rughoonathpore 27,537 bags, from Maldah and Sarun; and small supplies to Khagra and Culna.

9. *Wheat*.—The quantity of wheat registered was 19,88,078 maunds, against 9,68,413 maunds in 1879-80 and 799,624 maunds in 1878-79. The amount sent to Calcutta during the past year was 19,59,801 maunds.

10. *Gram and pulse*.—The total quantity of gram and pulses was 7,66,810 maunds, against 7,81,206 maunds in 1879-80 and 7,30,857 maunds in 1878-79. In the past year 7,14,031 maunds were sent to Calcutta.

11. *Other spring crops*.—The quantity registered was 3,72,574 maunds, against 3,82,207 maunds in 1879-80 and 1,89,973 maunds in 1878-79. Almost the whole of this is sent to Calcutta.

12. *Rice and paddy*.—The total quantities of rice and paddy registered was—

			1878-79.	1879-80.	1880-81.
			Mds.	Mds.	Mds.
Rice	18,80,000	10,32,602	12,84,700
Paddy	26,325	20,168	19,966

If the paddy is converted into rice at the rate of 25 seers of rice to a maund of paddy, the total of the year's traffic amounts to 12,95,528 maunds, against 10,45,207 maunds in 1879-80 and 19,05,453 maunds in 1878-79. The quantity brought down to Calcutta was 10,64,739 maunds, and the distribution of the remaining 2,30,789 maunds is shown in the following statement:—

13. *Hides*.—The hide trade was limited to 43,290 pieces, against 72,624 pieces in 1879-80 and 42,652 pieces in 1878-79.

14. *Saltpetre*.—Under saltpetre a decrease is shown of 26,087 maunds as compared with 1879-80, and of 37,165 maunds as compared with 1878-79.

15. *Other saline substances*.—The total quantity registered was 89,212 maunds, against 1,16,603 maunds in 1879-80 and 1,54,986 maunds in 1878-79, of which 80,627 maunds were carried to Calcutta, 8,151 maunds to Jeagunge in Moorshedabad, and 434 maunds to small marts. The supply for the most part was obtained from the Ghazipore district.

16. *Linseed*.—The total quantity amounted to 18,55,483 maunds, against 17,22,085 maunds in 1879-80 and 18,26,008 maunds in 1878-79. Of this 18,35,844 maunds were taken to Calcutta, and 19,639 maunds to other places, of which Bhuddressur imported 16,873 maunds, chiefly from Doolalgunge (12,020 maunds), Kissengunge (4,975 maunds), and Khagurriah.

17. *Mustard-seed*.—The total of mustard-seed was 10,96,050 maunds, against 10,64,393 maunds in 1879-80 and 15,06,088 maunds in 1878-79. The Calcutta consignment was 8,70,546 maunds, and the remainder, 2,25,504 maunds, was distributed as follows:—

18. *Silk, raw*.—The total quantity of raw silk amounted to 818 maunds, against 1,148 maunds in 1879-80 and 1,267 maunds in 1878-79. The supply sent to Calcutta was 107 maunds, and to marts in the Moorshedabad district 711 maunds.

19. *Sugar, refined*.—The total quantity of refined sugar was only 25,658 maunds, against 1,10,098 maunds in 1879-80 and 53,653 maunds in 1878-79; the decrease being due to the sluggish demand in the Calcutta market. The quantity sent to Calcutta was 14,034 maunds, and the remainder, 11,624 maunds, was disposed of in marts in Moorshedabad, Burdwan, and Hooghly districts, the chief places of supply being Ghazipore, Goruckpore, Moorshedabad and Sarun.

20. *Sugar, unrefined*.—The quantity registered was 42,936 maunds, against 55,914 maunds in 1879-80 and 51,338 maunds in 1878-79, of which 12,027 maunds were shipped for Calcutta, while the remainder, 30,909 maunds, found its way to Moorshedabad (17,809 maunds), Burdwan (7,546 maunds), and other districts (5,554 maunds).

21. *Tobacco*.—The total quantity of tobacco was 1,60,449 maunds, against 1,57,215 maunds in 1879-80 and 1,88,834 maunds in 1878-79. Of this Calcutta took 44,727 maunds and other districts 1,15,722 maunds. The details of the latter trade are:—

22. *Timber*.—There was a large decrease in this trade, the total being 44,378 maunds, against 1,19,255 maunds in 1879-80 and 1,58,900 maunds in 1878-79. The decrease is attributable chiefly to the slack demand for sal wood in Calcutta, only 37,735 maunds being imported during the past year, against 1,02,826 maunds in 1879-80 and 93,909 maunds in 1878-79.

23. *Up-stream traffic.*—The trade in the principal articles carried up-stream during the past three years, is exhibited in the following statement :—

28. *Iron and its manufactures.*—The total quantity registered was 1,23,122 maunds, against 1,13,230 maunds in 1879-80 and 107,043 maunds 1878-79. The supply shipped from Calcutta during the past year was 1,20,663 maunds, and from other places 2,459 maunds.

29. *Salt.*—The quantity of salt carried up-stream was 16,27,106 maunds, against 16,61,026 maunds in 1879-80 and 18,72,311 maunds in 1878-79. The details of this traffic will be found in the Calcutta section of this report.

TRADE ALONG THE MEGNA RIVER TO AND FROM CHITTAGONG.

30. The total quantity and value of the trade along the Megna river to and from Chittagong carried by country-boats during the past three years, are shown in the following statement :—

31. It was explained in the report for 1879-80 that the decrease of 6·18 per cent. in the weight of goods carried during that year was due to the omission from the country-boat registers, and the inclusion in the customs returns, of all goods carried by square-rigged vessels to and from Naraingunge, which had been declared a customs port. There is very little change in the figures of the past year as compared with 1879-80, the decrease under rice (95,553 maunds) being made up by an increase under other staples. The usual statement showing all the chief articles of trade imported into, and exported from, Chittagong by country-boats during the past three years, is subjoined :—

34. The quantity of goods carried during the past year showed an increase of 2,00,231 maunds on 1879-80, notwithstanding that a large portion of the canal to be closed is for silt clearance during several months of the year, as shown below :—

Midnapore Canal, Ranges IV and V ... From 1st to 30th April 1880 and from 7th to 28th February 1881.
Narainghur Channel ... From 12th January 1881 to 31st March 1881.
Hidgellée Canal ... From 1st to 7th April 1880.

35. The largest increase during the past year, as compared with 1879-80, was in coal (1,00,055 maunds), pulses (57,142 maunds), rice (47,702 maunds), salt (44,917 maunds), and tobacco 21,424 maunds), and the articles showing the largest decrease were European piece-goods (Rs. 4,21,011 in value), paddy (42,224 maunds), hides 90,217 piccos), linseed (17,265 maunds), mustard-seed (25,649 maunds), and timber (48,789 maunds). The number of laden boats the cargoes of which were registered during the past year was 51,282, against 40,230 boats in 1879-80 and 44,311 boats in 1878-79, as shown below :—

37. The money value of the trade shows a decrease of Rs. 24,35,383 as compared with 1879-80 owing to a reduction in the prices of food-grains. The imports into the Midnapore and Hooghly districts in 1880-81 were larger than in either of the preceding two years. Under exports the greatest improvement is found against Calcutta, which exported 12,22,165 maunds of goods, against 9,70,349 maunds in 1879-80 and 9,78,136 maunds

in 1878-79. The usual statement showing the quantity and value of the most important articles of traffic is subjoined :—

38* The Calcutta portion of the trade will be discussed elsewhere in this report. A brief account is given here of the local trade in such items as are of importance.

39. *Piece-goods, Indian.*—The total value of this trade was Rs. 5,39,260, against Rs. 5,42,480 in 1879-80 and Rs. 3,06,820 in 1878-79. Last year the value of these goods sent to Calcutta was Rs. 5,23,060, and the remainder, Rs. 16,200 worth of goods, was sent to Hooghly from the Midnapore district.

40. *Rice and paddy.*—The total quantity of rice registered during the past year was 5,32,096 maunds, against 4,84,394 maunds in 1879-80 and 9,38,605 maunds in 1878-79. The total quantity of paddy was 10,87,520 maunds, against 11,29,744 maunds in 1879-80 and 11,62,950 maunds in 1878-79. The amount of the Calcutta trade during the past year was 4,86,465 maunds of rice and 5,97,646 maunds of paddy, while the remainder, 45,631 maunds of rice and 4,89,874 maunds of paddy, was distributed as follows:—

	Rice. Mds.	Paddy. Mds.
Local trade of Midnapore district	43,846	3,09,867
Imports into Hooghly district from Midnapore	1,305	1,76,427
Local trade of Hooghly district	480	3,430
Trade between Midnapore, Hooghly, and 24-Pergunnahs	150
Total	45,631	4,89,874

41. The local trade of the Midnapore district is comprised for the most part of the movements of grain between Ballighye, Etabarlah, Geokhally, Hurrikhally, and Dainan, as shown below:—

Importing marts.			Exporting marts.		
	Rice. Mds.	Paddy. Mds.		Rice. Mds.	Paddy. Mds.
Geokhally	24,668	2,37,245	Ballighye	16,823	1,75,903
Hurrikhally	17,528	1,170	Etabarlah	9,577	13,989
Dainan	665	25,710	Contai	12,704

Total	43,846	3,09,867	Small marts	17,446	88,588
			Total	43,846	3,09,867

42. The paddy imported into Hooghly was for the most part carried to Amta (75,561 maunds) and Kharoobariah (24,130 maunds), and was shipped from Ballighye (52,356 maunds), Contai (22,495 maunds), Burramulla (13,440 maunds), Bussuntapore (11,930 maunds), Ballichuck (11,650 maunds), and from other marts in Midnapore.

43. *Vegetables and other kinds of provision.*—The total quantity registered was 64,259 maunds, against 57,798 maunds in 1879-80 and 22,231 maunds in 1878-79. The supply sent to and from Calcutta during the past year was 44,939 maunds, while the local trade amounted to 22,320 maunds, of which 17,440 maunds represent traffic between the different marts within the Hooghly district.

44. *Tobacco.*—The total quantity registered was 70,090 maunds, against 48,666 maunds in 1879-80 and 50,192 maunds in 1878-79, of which 64,435 maunds relate to the Calcutta trade. Of the remainder, 4,783 maunds represent the local traffic of the Midnapore district.

45. *Timber.*—The total quantity was 87,748 maunds, against 1,36,537 maunds in 1879-80 and 1,35,938 maunds in 1878-79. The quantity of timber sent to and from Calcutta was 12,028 maunds. Hooghly imported 4,261 maunds, while the local trade of the Midnapore district amounted to 71,459 maunds.

TRAFFIC ON THE ORISSA CANALS.

46. The total length of the Orissa Canals open for traffic was 136 miles. The quantity and value of the merchandize carried during the past three years, are shown in the following table:—

		Quantity of goods registered by weight.			Value of all articles of trade.		
		1878-79.	1879-80.	1880-81.	1878-79.	1879-80.	1880-81.

47. There is very little change in the quantities registered during the past year as compared with 1879-80, but a decrease is shown of nearly 8½ lakhs of rupees in the gross value. In reporting upon the general condition of the trade on these canals, the Executive Engineer, Bramini-Byturni Division, writes as follows:—

“In the month of August 1880 the tolls on all the canals were equalized on the basis of the mileage open, and with a view to assist trade half the tolls on empty boats has been abandoned; but trade not having revived the result on the traffic is not encouraging, although there can be no question as to the steps taken being in the right direction.”

48. The number of loaded boats of which the cargoes were registered during the past three years, was as follows:—

		Number of boats.

TRAFFIC ALONG THE CALCUTTA CANALS.

53. The total quantity and value of the trade passing the Calcutta canals, exclusive of the merchandize which was loaded or unloaded at the Port Commissioners' wharves and conveyed by this route, were as follows:—

	Quantity of goods registered by weight.			Value of all articles of trade,		
	1878-79.	1879-80.	1880-81.	1878-79.	1879-80.	1880-81.

54. These figures show a considerable expansion of traffic, the total quantity registered being 28,38,824 maunds in excess of the figures of 1879-80 and 14,29,302 maunds over those of 1878-79. The improvement is mainly in the import trade, the chief staples being raw jute (2,51,778 maunds), rice (18,02,926 maunds), paddy (1,05,532 maunds), mustard-seed (1,89,470 maunds), and fire-wood (4,60,518 maunds). In the export trade the largest increase will be found in coal (2,21,659 maunds) and European piece-goods (Rs. 4,26,426 in value), and the largest decrease in rice (66,440 maunds), salt (1,42,952 maunds), and in mustard-seed (1,49,704 maunds). Detailed statements in connection with this trade are published in the appendices attached to this report.

RIVER-BORNE TRAFFIC CARRIED BY INLAND STEAMERS.

55. The amount of traffic carried along the Brahmaputra and the Upper Megna rivers by the steamers of the India General Steam Navigation Company, and the Rivers Steam Navigation Company, during the past official year, as compared with the trade of the previous two years, is shown in the following table:—

56. The total value of the trade is Rs. 32,45,280 below that of 1879-80, and Rs. 10,32,740 below that of 1878-79, but the figures show an increase in the quantity carried of 2,30,157 maunds as compared with 1879-80 and 6,59,248 maunds as compared with the preceding year, notwithstanding that the steamers of one of the Companies ceased to run on the Cachar Line, from the latter end of April 1880. The increase on the Brahmaputra route was 11.98 and 29.52 per cent. as compared with 1879-80 and 1878-79, respectively. The most important items of trade which contributed to the increase in the year's traffic, as compared with 1879-80, are mustard-seed (2,58,591 maunds), liquors (Rs. 82,347 in value), betel-nuts (38,073 maunds), stick lac (6,584 maunds), tea (4,977 maunds), refined sugar (4,692 maunds), and European twist and

yarn (3,086 maunds). On the other hand, the staples which show a marked decrease are European piece-goods (Rs. 3,90,466 in value), raw jute (1,40,875 maunds), drugs and medicines not intoxicating (Rs. 60,632 in value), tobacco (18,449 maunds), and oils (16,631 maunds), most of these fluctuations being due to the diversion of the trade from the river to the Eastern Bengal and Northern Bengal Railways.

57. The statement below shows all the principal articles of traffic carried by this route, during the past three years:—

58. Columns 8 to 13 of the foregoing statement show the proportion borne by the Calcutta traffic to the total trade, the details of which will be explained elsewhere in this report.

59. *Caoutchouc or India-rubber.*—Of the grand total, 89 maunds were sent from Assam to Goalundo and 58 maunds to Naraingunge.

60. *Gram and pulse.*—The supply sent to Assam was 86,481 maunds, mostly from Calcutta; 15,985 maunds were sent from Serajgunge; 5,480 maunds from Goalundo; and 2,664 maunds from Naraingunge.

61. *Rice.*—The total supply is made up of exports from Calcutta (17,621 maunds), Serajgunge (2,00,357 maunds), Goalundo (88,694 maunds), Kali-gunge (25,339 maunds), Naraingunge (6,728 maunds), and from Dacca (1,302 maunds).

62. *Hides.*—The hide trade is no longer an important item of steamer traffic. The number of hides carried last year was only 7,379, of which 510 pieces relate to Calcutta trade, and of the remainder 4,818 pieces were sent to Naraingunge, mostly from Chuttuck in Sylhet, and 2,023 pieces to Dacca.

TRAFFIC ALONG THE BRAHMAPUTRA AND MEGNA RIVERS CARRIED BY THE STEAMERS OF THE EASTERN BENGAL RAILWAY.

63. In April last arrangements were concluded with the Agent, Eastern Bengal Railway, for the supply in future, to the Statistical Department of this Government, of statistics of trade carried by the steamers of the Company

along the Brahmaputra and Megna rivers for incorporation in the annual report on the internal trade of Bengal. The following is an analysis of the trade registered during 1880-81 :—

			Down traffic.	Up traffic.	Total.
			Mds.	Mds.	Mds.

65. It will be seen, however, that 95·29 per cent. of the total trade, carried by the Company's steamers, relate to the traffic to and from Calcutta. Detailed statement in connection with this trade is published in the appendix attached to this report.

STATEMENTS OF BENGAL RAILWAY TRAFFIC.

TRAFFIC ALONG THE EAST INDIAN RAILWAY.

66. As before, the statistics of trade carried along this line are regularly obtained from the Company's Audit Office at Jamalpore, but the payments hitherto made by the State for the preparation of these returns have lately ceased under the orders of the Government of India, made with reference to the new contract of the East Indian Railway Company, which provides for the supply of all statistical returns required by Government.

67. It was explained in the last report that in order to obtain the actual weight of goods carried by this line the Compiling Office at Jamalpore had undertaken to make the necessary deductions in their traffic returns on account of packing weights in accordance with the estimated rates fixed for that purpose. This method of calculation was adopted in the preparation of the traffic returns for 1880-81. Instructions were also issued in May 1880 by the Government of India to the Railway Authorities concerned to make the required distinction between goods of Indian and non-Indian origin in the returns furnished by them in respect of twist, piece-goods, and tea, and it will be possible to furnish complete information for a whole year under those heads in the returns of 1881-82.

68. The total quantity and value of merchandize imported into and exported from each of the three blocks of Calcutta, Bengal, and Behar, exclusive of the local trade between station and station within the latter two blocks, are shown in the following statement :—

71. The details of the Calcutta trade shown in the final two columns of the foregoing statement are considered elsewhere in this report, and the remarks in this section will relate for the most part only to the fluctuations in the local trade of the Bengal and Behar blocks.

72. *Coal, public.*—The coal trade showed a decrease of 10,00,574 maunds as compared with 1879-80, and an increase of 4,96,258 maunds as compared with 1878-79. The chief falling off as compared with the previous year is in the downward traffic, which was affected by the importation of large quantities of English coal into Calcutta by ships which brought out coal as ballast. Exclusive of the metropolitan trade, amounting to 1,05,48,100 maunds, the trade amounted to 50,48,415 maunds, all of which, excepting of

1,086 maunds re-exported from Behar, was consigned from the Bengal block. The Bengal supply during the past three years was distributed as follows :—

73. The large decrease in the quantity exported to the North-Western Provinces was made up by a corresponding increase in the supplies sent to other provinces.

74. *Cotton, raw.*—The quantity carried downwards was 12,81,387 maunds, against 14,62,365 maunds in 1879-80, and 7,26,859 maunds in 1878-79. The amount of the Calcutta trade last year was 11,53,622 maunds, and of the remainder 1,14,139 maunds went to Behar and 18,347 maunds to Bengal.

75. *Cotton piece-goods.*—The registration of the piece-goods trade has now been much improved, and since July 1880 the returns show separately the trade in goods of foreign origin and those manufactured in this country. The total amount of piece-goods registered during the past three years, was—

76. *Indigo*.—The quantity of indigo carried downwards was 42,109 maunds, in excess of the figures of 1879-80, and it was 2,473 maunds below that of 1878-79. The entire supply was sent to Calcutta with the exception of 960 maunds, of which 785 maunds came down to Behar from the North-Western Provinces.

77. *Turmeric*.—The up-trade in turmeric was 53,667 maunds, against 48,870 maunds in 1879-80, and 64,900 maunds in 1878-79. The quantity supplied from Calcutta was 13,758 maunds, and of the remainder, 41,587 maunds were exported from Behar, and were chiefly consigned to the North-Western Provinces (25,133 maunds) and the Punjab (10,319) maunds.

78. *Fibres, manufactured*.—The total quantity carried was 5,13,242 maunds, against 4,75,347 maunds in 1879-80 and 5,55,513 maunds in 1878-79. The amount of the Calcutta trade was 4,08,886 maunds, and that of the other two blocks 1,04,356 maunds. The chief items comprising the latter supply were 49,486 maunds sent to the North-Western Provinces, 24,141 maunds carried to Behar from Bengal, and 19,765 maunds sent to the Punjab.

79. *Potatoes*.—The total of potatoes was 1,41,823 maunds, against 72,586 maunds in 1879-80 and 82,381 maunds in 1878-79, the increase being due to the brisk demand in Calcutta and a full crop in Behar. The quantity sent to Calcutta was 73,377 maunds. Of the remainder, 54,860 maunds were exported from Behar into Bengal and 11,408 maunds from Behar to the North-Western Provinces.

80. *Food-grains*.—The aggregate quantity of food-grains carried last year was 95,75,466 maunds, against 67,30,885 maunds in 1879-80 and 74,21,243 maunds in 1878-79, as shown below :—

81. The increase in the down traffic was due to the expansion of the trade in wheat, which more than made up the marked deficiencies in the supply of rice (3,88,494 maunds) and miscellaneous food-grains (1,97,660 maunds) as compared with 1879-80. The rates for conveyance of food-grains were low, and special reduced rates were also allowed during the rainy season for traffic to Howrah. In the up traffic the figures showed an increase in rice (11,69,092 maunds), pulses (2,81,551 maunds), and miscellaneous food-grains (4,90,325 maunds), as compared with 1879-80. The partial failure of food-grain crops in Rajputana and the districts of Agra, Alighur, and Muttra raised the prices for food-grains, and large supplies of rice from Beerbhoom, Moorshedabad, Sonthal Pergunnahs, and Purneah, and pulses from Behar, were carried to up-country stations. The amount of Calcutta trade was 68,38,265

maunds, and the remainder, 27,37,201 maunds, as detailed below staple by staple, was composed of despatches to and from the other two blocks:—

82. The exports of wheat from Behar amounted to 61,167 maunds, of which 56,766 maunds were sent to Bengal and 4,401 maunds to North-Western Provinces. In pulses, too, Behar, with an exportation of 6,39,651 maunds, was the chief supplier, the places of destination being Bengal (3,46,205 maunds), North-Western Provinces (2,91,899 maunds), and other provinces (1,547 maunds). The rice figures are made up of exports from Bengal (9,79,502 maunds), Behar (4,48,981 maunds), and Upper Provinces (3,979 maunds). The destination of these supplies are shown below as compared with the figures of the previous two years:—

To	1878-79.	1879-80.	1880-81.

Bombay	9,791	4,285	21,678
Total	6,86,233	3,22,733	14,32,462

The exports of miscellaneous food-grains from Behar were 5,24,627 maunds, of which 5,15,603 maunds were sent to the North-Western Provinces.

83. *Hides*.—The number of hides carried downwards was only 4,052,344, against 7,191,616 in 1879-80 and 4,899,520 in 1878-79. The Calcutta consignment was 3,958,488 pieces, while the trade of the other two blocks, including the upward traffic, was 1,12,624, of which 96,232 pieces were carried to Behar from the North-Western Provinces.

84. *Shell-lac*.—The total trade in shell-lac was 93,206 maunds, against 74,902 maunds in 1879-80 and 1,30,377 maunds in 1878-79. Of this 92,677 maunds were sent to Calcutta. During November and December last there was a brisk demand for shipment to Europe and Africa, which increased the down-ward traffic from Panighur, Ranigunge, and Suktighur stations.

85. *Lime*.—The traffic in lime was 3,25,030 maunds, against 2,62,565 maunds in 1879-80 and 2,37,824 maunds in 1878-79. The charge for conveyance of lime from Manickpore in Banda to Howrah was reduced from April 1880. The amount of the Calcutta trade was 2,84,686 maunds.

86. *Liquors*.—The decrease in the liquor trade was 78,467 maunds as compared with 1879-80, and 1,26,612 maunds as compared with 1878-79. The quantity sent last year from Calcutta was 1,03,609 maunds, and the trade of the other two blocks amounted to only 1,844 maunds.

87. *Brass and Copper*.—The quantity registered was 2,17,689 maunds, against 2,29,342 maunds in 1879-80, and 1,68,704 maunds in 1878-79. The amount of the Calcutta traffic was 1,94,945 maunds, and the remainder, 22,744 maunds, was mostly composed of exports from North-Western Provinces (12,924 maunds), Behar (6,668 maunds), and from Bengal (2,401 maunds). The North-West supply was despatched principally to Behar (12,663 maunds), while the bulk of the Behar supply went to North-Western Provinces (5,190 maunds).

88. *Iron*.—The quantity registered under this head was 11,46,562 maunds against 15,79,315 maunds in 1879-80, and 14,24,833 maunds in 1878-79, the falling off being chiefly in the consignments for the Government Telegraph Department, and in despatches of pipes for the Simla water-works. The entire trade belonged to Calcutta, with the exception of 18,409 maunds relating to that of the other two blocks.

89. *Oils*.—The weight carried was only 96,950 maunds against 1,17,830 maunds in 1879-80, and 1,59,723 maunds in 1878-79. The amount of the Calcutta traffic was 90,466 maunds, of which 60,445 maunds, chiefly of kerosine-oil, were despatched to up-country stations.

90. *Oil-cake*.—This trade rose from 1,33,813 maunds in 1878-79 to 1,57,553 maunds in 1879-80, and 1,74,856 maunds in 1880-81. The reduction in the rate charged for conveyance from the Company's mills at Manowree in Allahabad gave an impulse to the traffic. The quantities shown under Calcutta is 36,157 maunds, and of the remainder, 1,34,309 maunds were sent to Bengal, the places of supply being Behar (1,08,072 maunds) and the North-Western Provinces (26,237 maunds).

91. *Opium*.—The total quantity of opium was only 1,21,309 maunds against 2,12,176 maunds in 1879-80, and 1,67,139 maunds in 1878-79. The despatches of liquid opium from Cawnpore and Etawa districts to the Government Opium Agencies fell off, owing to diminished outturn of the poppy crop. The quantity despatched to and from Calcutta was 1,10,251 maunds, and the remainder, 11,058 maunds, was consigned to Behar from the North-Western Provinces.

92. *Ghee*.—The trade in ghee showed a great improvement during the past year, the total quantity being 1,30,781 maunds against 96,059 maunds in 1879-80 and 1,09,916 maunds in 1878-79. The out-turn of ghee in the North-Western Provinces is said to have been abundant, and the local market-rate was low enough to admit of a profitable trade with Calcutta, which imported 1,09,833 maunds by this route.

93. *Salt*.—The quantity carried was 26,52,845 maunds against 25,51,646 maunds in 1879-80, and 21,99,408 maunds in 1878-79. The distribution of the traffic carried upwards during the past three years, is shown in the following statement:—

96. The large imports into Behar was drawn from the Sumbhur salt sources *via* the Rajputana State Railway.

97. *Saltpetre*.—The gross weight carried of saltpetre was 5,29,843 maunds, against 6,78,859 maunds in 1879-80, and 5,12,792 maunds in 1878-79, of which 5,27,048 maunds were sent to Calcutta.

98. *Other Saline Substances*.—The quantity registered of other saline substances, such as kharri, sujje, &c., was 2,25,146 maunds against 1,69,164 maunds in 1879-80, and 1,50,220 maunds in 1878-79. The Calcutta trade amounted to 66,992 maunds, and that of the other two blocks to 1,58,154 maunds, of which 1,50,330 maunds were exported from Behar, the chief places of import being North-Western Provinces (83,702 maunds) and Bengal (54,370 maunds).

99. *Oil-seeds*.—The aggregate quantity of oil-seeds registered during the past year was 58,18,269 maunds against 53,02,231 maunds in 1879-80, and 56,09,111 maunds in 1878-79, as shown below :—

100. The trade in linseed was more than double that of the previous year, but there was a large decrease under mustard-seed and other oil-seeds, due to paucity of stocks in the North-Western Provinces, where the crop was below the average. Apart from the Calcutta portion of the trade there remain 47,824 maunds of linseed, 4,51,295 maunds of mustard-seed, 8,617 maunds of til-seed, and 51,632 maunds of other oil-seeds to be noticed. In linseed the most important item is an export of 30,576 maunds from the North-Western Provinces, the Behar block receiving 16,184 maunds, and the Bengal block 14,392 maunds. Bengal also imported 16,728 maunds from Behar. The chief sources of supply of mustard seed were Behar (3,84,329 maunds), and the North-Western Provinces (64,822 maunds). Of the Behar exports 3,82,756 maunds went to Bengal, and the North-Western Provinces supply was distributed among Bengal (48,928 maunds), and Behar (15,894 maunds). The total quantity of oil-seeds imported into Calcutta from Bengal and Behar was—

101. *Indigo-seed*.—The total quantity registered was 1,80,049 maunds against 1,76,424 maunds in 1879-80, and 1,36,987 maunds in 1878-79. The total of the Calcutta trade was 17,988 maunds and that of the other two blocks 1,62,061 maunds. Out of the latter supply, the North-Western Provinces consignment was 1,56,633 maunds, of which Behar received 1,47,887 maunds, and Bengal 8,746 maunds.

102. *Silk, raw*.—The weight of raw silk carried was 15,385 maunds against 16,320 maunds in 1879-80, and 15,228 maunds in 1878-79, of which 11,947 maunds relate to the Calcutta trade.

103. *Silk, manufactured*.—The total quantity registered was 12,163 maunds against 13,425 maunds in 1879-80, and 10,046 maunds in 1878-79. The amount of the Calcutta trade was 7,066 maunds, and of the other two blocks 5,097 maunds.

104. *Spices*.—The total quantity of spices was 1,17,400 maunds against 1,22,796 maunds in 1879-80 and 1,06,201 maunds in 1878-79. The traffic outside Calcutta was only 24,474 maunds, of which 22,795 maunds were exported from Behar, the chief consumers being North-West Provinces (17,402 maunds) and Bengal (4,380 maunds).

105. *Stationery*.—The total trade amounted to 80,516 maunds, against 91,397 maunds in 1879-80 and 79,933 maunds in 1878-79, of which 56,099 maunds were exported from Calcutta. Of the remainder, 23,841 maunds were supplied from Bengal (mostly from the Bally Paper Mills), and were consigned to North-West Provinces (14,482 maunds), Behar (4,614 maunds), Punjab (2,756 maunds), and to other places (1,989 maunds).

106. *Sugar*.—The quantities of refined and unrefined sugar registered during the past three years were—

			1878-79.	1879-80.	1880-81.
			Mds.	Mds.	Mds.
Refined sugar	2,52,255	2,61,340	2,64,858
Unrefined do.	4,47,113	5,24,355	2,86,427

The decrease in unrefined sugar was due to a partial failure of the sugar-cane crop in Rohilkhund and the North-Western Provinces. The Calcutta portion of the trade in these staples during the past year was 65,903 maunds of refined and 57,329 maunds of unrefined sugar, while the trade shown under the other two blocks was 1,98,955 maunds of refined and 2,29,098 maunds of unrefined sugar. The total exports from the Behar districts, including supplies sent to Calcutta, amounted to 2,15,017 maunds of refined and 2,63,442 maunds of unrefined sugar, and were distributed as follows:—

108. *Tobacco*.—The quantity of tobacco registered was 2,42,554 maunds, against 2,31,342 maunds in 1879-80, and 3,52,106 maunds in 1878-79. The amount of the Calcutta trade was 24,919 maunds, and that of the other two blocks 2,17,635 maunds. The total quantity of tobacco exported from Behar, including supplies sent to Calcutta, was 2,22,701 maunds, and was distributed as follows:—

109. *Timber*.—The total quantity registered was 1,38,470 maunds, against 2,98,111 maunds in 1879-80, and 2,28,726 maunds in 1878-79, the fluctuations being most marked in despatches of sleepers and timbers for other railways. The amount of the Calcutta traffic was 1,21,495 maunds.

TRAFFIC ALONG THE EASTERN BENGAL RAILWAY.

110. The total quantity and value of merchandize imported into and exported from Calcutta by the Eastern Bengal Railway during the past three years, are shown in the following statement:—

111. The aggregate quantity carried last year to and from Calcutta by this route shows an increase of 8,71,862 maunds, or 9.90 per cent. as compared with 1879-80, and 19,29,977 maunds, or 24.90 per cent. as compared with 1878-79. Improvement is found under almost all articles of traffic. In the import trade the largest increase, as compared with 1879-80, is observable in rice (7,33,857 maunds), mustard-seed (3,40,568 maunds), wheat (1,74,101 maunds), linseed, tea, tobacco, and raw cotton; and in the export trade the most noticeable items showing an increase are European piece-goods (Rs. 28,09,313 in value), coal (1,18,533 maunds), and salt (56,569 maunds). The following remarks are quoted from a note by the Agent, Eastern Bengal Railway, on the revenue account for the half year ending December 1880, explanatory of the general condition of the goods traffic on that line:—

“The receipts from goods traffic amount to £180,438, as compared with £153,764, the receipts from the same source during the half year ending December 1879, showing an increase of £26,674, or 17.34 per cent.; and adding the Poradhua section share of earnings £2,202, the increase is actually £28,376. These figures are remarkable as being the highest yet recorded, the next highest being those for the half year ending December 1877, during which period it will be remembered there was a very large traffic of an extraordinary character in rice and other food-grains, in consequence of the famine which was so severely felt in the Madras Presidency.”

112. The principal articles of the import traffic conveyed by this line during the past three years, are—

117. The increase in the total quantity of goods carried during the past year was 17.76 per cent. as compared with 1879-80, and 5.90 per cent. as compared with 1878-79, attributable to larger imports of rice and fire-wood and to increased export of coal and gunnies. The following abstract shows the quantity and value of the principal articles of traffic :—

118. The increase in coal is due to the demand for the Mugra Haut Extension. The gunnies sent were consumed at the Mutla Rice Mills. The rice trade shows an increase of 33,403 maunds as compared with 1879-80, and 73,192 maunds as compared with 1878-79, and is due to the more successful working of these mills. The decrease in paddy is attributable to the greater demand for husking at the mills.

120. These figures show a remarkable development of the traffic, and, though the system of feeders has only just commenced, the gross quantity carried shows an increase of 21·39 per cent. on the figures of 1879-80, and of 86·91 per cent. on those of 1878-79. The increase is observable under almost every item of traffic. The following statement shows all the most important articles of merchandize conveyed by this railway, during the past three years:—

121. A brief analysis of the trade in respect of some of the chief staples of traffic is given below.

122. *Cotton piece-goods (European).*—The trade has largely expanded, the total value amounting to Rs. 1,05,96,525 against Rs. 92,91,675 in 1879-80 and Rs. 72,17,200 in 1878-79. The value of piece-goods imported into the districts of Northern Bengal from Calcutta by railway and by river is shown in the following statement:—

To	Exports by rail.			against	Exports by river.		
	1878-79.	1879-80.	1880-81.		1878-79.	1879-80.	1880-81.

Rungpore	13,14,810	20,97,600	21,62,212	4,35,023	3,90,722	3,25,489	
Rajshahye	21,34,950	17,10,647	21,62,110	1,025	400	
Julpigoree	16,79,000	18,35,606	17,90,700	
Dinagapore	16,48,160	14,84,925	11,56,463	1,950	100	
Bogra	5,90,720	6,16,613	7,71,375

Total	73,07,640	77,45,391	81,48,235	4,37,998	3,91,122	3,25,589	

These figures show how the railway has gradually succeeded in displacing the agency of country boats and inland steamers in the carriage of piece-goods to this part of the country.

123. *Jute, raw.*—The total quantity carried during the past year was 6,74,976 maunds against 7,02,539 maunds in 1879-80, and 1,25,638 maunds in 1878-79. The traffic was somewhat checked during the second quarter of the year, when the Eastern Bengal Railway withdrew their special reduced rates for jute, at a time when the principal jute-despatching stations on the Northern Bengal line were tapped by water communication. The amount of jute carried to Calcutta from Northern Bengal during the past two years was—

When the proposed branch line between Parbuttipore and Dinagore town has been constructed the jute from Dinagore will doubtless take to the line.

124. *Gunnies*.—The number of gunnies carried was 2,257,850 pieces, against 1,580,250 pieces in 1879-80, and 1,295,595 pieces in 1878-79. The supply sent to Calcutta was—

127. The following statement compares the amount of rice sent from Northern Bengal to Calcutta by railway and river:—

It will be seen that almost the entire supply of rice carried by country boats comes from the Dinagore district with which railway communication is still very imperfect.

128. *Hides*.—The number of hides carried rose from 21,088 pieces in 1878-79 to 30,440 pieces in 1879-80, and 81,608 pieces in 1880-81. The Calcutta consignment was 49,177 pieces, of which 35,005 pieces were sent from Julpigoree.

129. *Liquors*.—The total value of liquors registered during the past year was Rs. 7,83,810 against Rs. 5,69,160 in 1879-80, and Rs. 4,56,975 in 1878-79. This traffic is regulated by the requirements of the Commissariat Department, who have a convalescent depôt for the troops at Darjeeling.

130. *Salt*.—The total quantity carried was 3,06,134 maunds against 1,76,732 maunds in 1879-80, and 25,628 maunds in 1878-79. The low rate at which salt is now conveyed on this line has largely diverted the traffic from the river to the railway. The supply consigned to the Northern Bengal line from Calcutta by the Eastern Bengal Railway during the past three years, as compared with the quantities carried by country boats during that period, is shown in the following table :—

131. *Sugar*.—The amount of sugar carried was 29,873 maunds against 26,639 maunds in 1879-80, and 10,371 maunds in 1878-79.

132. *Tea, Indian*.—The quantity carried was 1,16,482 maunds against 83,298 maunds in 1879-80, and 74,812 maunds in 1878-79. The amount sent to Calcutta by this route was 1,13,276 maunds against only 3,383 maunds sent by the old Caragola route.

133. *Tobacco*.—The quantity carried during the past year was 2,76,509 maunds against 1,44,240 maunds in 1879-80, and 51,425 maunds in 1878-79. The statement below shows the quantity of tobacco carried to Calcutta by this line during the past three years, as compared with that carried by country boats :—

NULHATI STATE RAILWAY.

134. The total traffic attracted to this line during the past three years, is shown in the following table :—

1880-81	...	1,38,461	76,440	2,14,901	59,28,090

135. The quantity of goods carried during the past year is 47·06 per cent. below the figures of 1879-80 and 45·79 per cent. below those of 1878-79. There is a decrease under almost every item of traffic except raw-cotton, piece-goods, gunnies, pulses, and hides. There can be no doubt that this short line is badly placed for traffic, and the trade of Moorsshedabad has been severely injured by several heavy failures amongst the bankers of Azimgunge. The abstract below shows the quantity and value of the principal articles carried by this line:—

136. The quantity and value of merchandize conveyed by this line during the past three years, were as follows:—

1880-81	...	10,55,204	10,19,589	20,74,793	2,70,59,846

137. The quantities carried during the past year are 33·69 per cent. in excess of the figures of 1879-80, and 111·83 per cent. above those of 1878-79. The increase is observable in almost all articles of trade, notably in coal, piece-goods (Indian), indigo, food-grains, iron, salt, oil-seeds, lac, and tobacco; and there can be no doubt that when the line is properly extended it will attract a vast amount of traffic. The following statement shows the quantity and value of the principal staples carried during the past three years :—

138. *Cotton Piece-goods.*—The figures under European piece-goods show a decrease of Rs. 7,13,475 in value, as compared with 1879-80, but an increase of Rs. 4,92,360, as compared with 1878-79. This traffic was injuriously affected for several months of the year by the failure of some important native banks. The value of the trade under Indian piece-goods, however, rose from Rs. 8,99,490 in 1878-79 to Rs. 19,82,970 in 1879-80, and Rs. 31,21,456 in 1880-81.

139. *Indigo.*—There was a large increase in this traffic, 37,695 maunds being carried against 16,502 maunds in 1879-80, and 13,273 maunds in 1878-79. Special attention was paid by the railway authorities to the safe transit of indigo, and no delay was allowed to occur in forwarding.

140. *Food-grains.*—The aggregate weight of food-grains was 4,42,242 maunds against 3,23,751 maunds in 1879-80, and 2,88,371 maunds in 1878-79, as shown below:—

Much of this consists of local traffic, the grain being exported from Durbhunga to Somastipore Junction and Dalsing Serai for sale in places near the railway. The whole quantity of food-grains sent to Calcutta from the two districts of Mozufferpore and Durbhunga during the year was only 50,453 maunds, of which 41,928 maunds were carried by rail and the remainder by country boats.

141. *Salt.*—There was an increase from 1,14,662 maunds in 1878-79 to 2,42,128 maunds in 1879-80 and 3,00,264 maunds in 1880-81. The amount of salt carried to Mozufferpore and Durbhunga from Calcutta direct during the past three years was—

1880-81	2,62,343	1,29,862	3,92,205

142. *Saltpetre.*—The figures for the past year show a decrease of 33,453 maunds as compared with 1879-80, but an increase of 22,767 maunds as compared with 1878-79. It is said that several large firms closed business during the year, and that prices were unfavourable to exporters. The quantity of saltpetre

sent to Calcutta from Mozufferpore and Durbhunga was 99,943 maunds during the past year, of which 87,469 maunds were carried by rail and 12,474 maunds by country boats.

143. *Oilseeds*.—The total trade during the past three years, was—

	1878-79.	1879-80.	1880-81.
	Mds.	Mds.	Mds.

Total	1,36,681	1,81,138	2,67,145

This increase in the seed traffic is especially satisfactory. The quantities of linseed and mustard seed imported into Calcutta from Tirhoot during the past two years, are shown below :—

{ 1880-81	38,024	37,525	75,549

144. *Indigo seed*.—The figures show an increase of 9,216 maunds as compared with 1879-80 and of 26,571 maunds as compared with 1878-79, and is attributable to reduction in freight. Almost all the Tirhoot concerns now avail themselves of the railway instead of getting their supplies as before by boat *via* Hajepore.

145. *Tobacco*.—The total quantity carried during the past year was 1,28,552 maunds, against 88,695 maunds in 1879-80 and 46,801 maunds in 1878-79. Tobacco was mostly booked to Bazitpore, and thence carried in boats to Calcutta and to stations on the East Indian Railway.

148. It is stated that large quantities of unrefined sugar were carried to Bombay from the Gya district. Although the goods traffic on this Railway is considerable and likely to increase, the most remarkable feature in connection with the line is the heavy coaching traffic. The number of persons carried was 392,968 in 1879-80 and 545,222½ in 1880-81, and the average number carried per mile was 9,565½ against 5,698½ on the East India Railway, 12,042½ on the Eastern Bengal Railway, and 3,016½ on the Northern Bengal State Railway.

COTTON TWIST AND YARN.

8. There has been a large increase in the imports of these goods into Calcutta from foreign ports, the total value being Rs. 1,39,20,593, against Rs. 97,55,635 in 1879-80, and Rs. 1,05,71,836 in 1878-79. The supply received last year was, however, much in excess of actual requirements, and according to the Customs returns the stocks of grey twist and yarn rose from 1,167 bales in December 1879, to 3,128 bales in December 1880, or nearly one month's imports at the average rate of the year.

9. The sea imports of these goods of European manufacture into Calcutta during the past three years, were obtained from the following sources :—

17. The steamer services of the Railway Companies supplied Dacca with 12,004 maunds of twist during the year. The other marts importing largely are Serajgunge (5,059 maunds), Caragola (2,314 maunds), and Naraingunge (1,880 maunds).

COTTON PIECE-GOODS.

18. Under the orders of the Government of India, the traffic returns of the East India Railway regarding piece-goods have been greatly improved, and they now distinguish between goods of foreign importation and those manufactured in this country, but complete figures in respect of them for the whole period will not be available until next year. These returns still show the quantities in maunds, but the figures of the past year represent the net weight, after making the requisite deductions on account of the weight of packing, as explained in paragraph 35, page 53 of the last report. The average price of a maund of piece-goods in Bengal was ascertained last year to be 75 rupees, and that rate has been adopted in this report for the conversion of quantities by weight into quantities by value in respect of the rail-borne exports. The following statement shows the piece-goods trade of Calcutta, month by month, during the past three years:—

19. The increase in the importation of foreign piece-goods during the past year is very large, amounting to Rs. 2,78,52,474 in value, as compared with 1879-80, and Rs. 4,67,05,009 as compared with 1878-79. The different places from which the supply was derived are—

20. It will be seen that the increase last year in the total trade was 27·01 per cent. as compared with 1879-80, while the import from the United Kingdom is 27·06 per cent. above the previous year's supply, and 55·05 per cent. over that of 1878-79. The Collector of Customs makes the following extract from the review of the *Manchester Guardian* regarding the trade in cotton piece-goods for the year 1880:—

"The most prominent and also the most encouraging feature in the course of the Manchester market for cotton goods during the past year has been the large amount of goods and yarns taken off by India. With very little intermission Calcutta has continued, to the surprise of most persons engaged in trading thither, to take off enormous quantities of cloth, demand usually slackening, however, whenever any attempt to raise prices was made. Never before in any single year has India absorbed so large a quantity of cotton goods. The main cause of the large export to India is undoubtedly the partial exhaustion of stocks in the bazaars and the households of the country, which occurred in consequence of famine. Sooner or later the gap thus created will be filled up, and already some merchants are beginning to think that this stage has nearly been reached."

He adds—

"Of piece-goods, grey and white, there has no doubt been an enormous increase of consumption, for, not only have the heavy imports been absorbed, but the stocks held at the end of 1879 have, in the case of almost all descriptions, been largely reduced. The opinion expressed last year that this market could probably take at least 70 millions of yards of plain cottons monthly in times of prosperity has been fully supported by the operations of the year, and even that liberal estimate has been exceeded, for the figures now submitted show an average monthly importation of over 76 millions of yards of plain cottons, against little more than 62 millions per month in 1879-80. The despatches of cotton piece-goods by East Indian Railway from Howrah to the North-West during 1880 show, as compared with 1879, an increase of 3,479 packages, or about 5 per cent. only, but those to the Punjab show an increase of 13,258 packages, or more than 25 per cent. Despatches from Bombay are given in maunds in the Jubbulpore returns, and show a falling off to both districts, so that the Bombay market has not apparently offered the same inducement that was noticed last year. The figures for the Bengal Railways show that despatches for the Eastern Bengal Line in 1880 were about 13,000 maunds (or 10 per cent.) above those for 1879, while those for the Northern Bengal were a trifle lower. With reference to coloured and printed goods, no reliable information regarding stocks is available. The imports are more than 50 per cent. in excess of 1879-80, and though there has been a very large off-take, it is generally believed that the demand has been more than met, and that stocks, especially of the latter (printed goods), have accumulated to a considerable extent in both the up-country bazaars and Calcutta."

21. The total value of cotton piece-goods of Indian manufacture imported into Calcutta by sea was Rs. 21,10,475, against Rs. 28,15,816 in 1879-80, and Rs. 25,06,804 in 1878-79. These came chiefly from Bombay, which also sent Rs. 2,150 worth of these goods by rail to Calcutta, against Rs. 23,925 in 1879-80 and Rs. 9,280 in 1878-79. The aggregate registered imports of piece-goods of power-loom manufacture, therefore, amount to Rs. 13,30,74,829, against Rs. 13,59,49,471 in 1879-80, and Rs. 8,67,73,279 in 1878-79.

GRAND TOTAL	13,02,49,688	12,99,46,421	14,18,12,539

24. As compared with 1879-80 the exports show an advance of Rs. 1,18,66,118, or 9·13 per cent.

25. If 25 per cent. be added to the imports by sea on account of under-statement of values, duty, insurance, landing charges, &c., &c., as on previous occasions, the total of the year's traffic would amount to Rs. 16,63,42,999. Of this, Rs. 14,18,12,539 represents the value of goods exported during the year as shown above. From the balance of Rs. 2,45,30,460, 25 lakhs must be deducted for the metropolitan consumption, and the result would then be a surplus of imports over exports to the value of Rs. 2,20,30,460. It is well known that there were extremely heavy stocks on hand in Calcutta at the close of 1880-81.

26. The total value of piece-goods imported into the different divisions of the Bengal Province from Calcutta is shown below :—

27. The increase in the total trade amounts to Rs 38,28,178 as compared with 1879-80. It will be seen that the proportion of increase was largest in the supply sent to the Dacca Division. The imports of piece-goods by rail into Bengal from places beyond its limits, were—

Total ...	14,29,009	9,69,212	7,59,742

28. The aggregate value of imports into Bengal therefore amounts to Rs. 4,46,37,924, against Rs. 4,11,21,078 in 1879-80.

Exports. 29. The total value of piece-goods exported from Bengal by rail and by land, is shown below:—

	1878-79.	1879-80.	1880-81.
	Rs.	Rs.	Rs.

Total ...	9,53,976	7,38,654	11,84,957

30. The excess of imports over exports amounts therefore to Rs. 4,34,52,967, which, among a population of 39,826,720 souls, would give an average consumption of Re. 1-1-6 per head.

Comparison of imports with exports. 31. The amount of piece-goods sent to Behar from Calcutta is shown below, division by division:—

	1878-79.	1879-80.	1880-81.

32. The increase amounts to Rs. 22,27,403, or 6.94 per cent. as compared with 1879-80. The imports by rail from places other than Calcutta, are:—

	1878-79.	1879-80.	1880-81.
	Rs.	Rs.	Rs.

Total ...	12,37,940	9,81,611	9,08,786

33. The total registered imports therefore amount to Rs. 3,52,16,984, against Rs. 3,30,14,406 in 1879-80 and Rs. 3,53,44,844 in 1878-79.

Exports.

34. The value of piece-goods exported from Behar by rail and land during the past three years, is shown below:—

		1878-79.	1879-80.	1880-81.
		Rs.	Rs.	Rs.

Total		.. 17,94,968	16,60,067	17,18,472

35. If exports are deducted from imports, the value of piece-goods left for consumption in Behar is Rs. 3,34,98,512. This would give a rate of Re. 1-7-5 per head on a population of 22,911,134 souls.

Trade of Orissa.

36. The imports of piece-goods into Orissa are—

		1878-79.	1879-80.	1880-81.
		Rs.	Rs.	Rs.
From Calcutta	8,30,959	11,06,593	10,06,061
„ Other Indian ports	12,977	950	3,447
Total		8,43,936	11,07,543	10,09,508

37. The exports from this province amount to Rs. 1,609, and the balance, amounting to Rs. 10,07,899, gives the average local consumption at annas 3 pies 1 per head of the population (5,184,066) per annum.

38. The importation of piece-goods into Assam from Calcutta amounts to Rs. 36,80,928 in value, against Rs. 39,45,490 in 1879-80, and Rs. 42,66,209 in 1878-79.

43. Last year the Bowreah Mill manufactured only mule yarn, and no progress of local manufacture by steam and by hand. mention is made of its having produced any cloth whatever. The Commissioner of the Burdwan Division remarks that small quantities of cotton are grown in Bankoora and other districts, and that a little cotton cloth is still produced by native weavers here and there. He adds:—"It is only made for local consumption, and would be entirely driven out of the market by the Manchester goods, were these latter free from size and other tricks whereby a thin, poor stuff is made to look strong and good." No separate account has been furnished of the progress of local manufacture in the Midnapore district, but the imports of cotton twist and yarn amounted to 62,453 maunds during the year, against 58,834 maunds in the previous year, while under cotton piece-goods the imports showed a decrease of Rs. 3,99,631 in value. On the other hand the value of Indian piece-goods imported into Calcutta from Midnapore showed a trifling increase, being Rs. 5,23,060 against Rs. 5,22,920 in 1879-80. The Commissioner of the Presidency Division writes:—

"Coarse cloth, which was formerly manufactured for the use of agricultural classes, is now a rarity, having for years been displaced by the use of European and American bordered and unbordered shirtings, which are now exposed for sale in small village markets. The celebrated looms of Santipore, noted for the manufacture of cotton piece-goods of the finest texture, have suffered greatly on account of the importation of machine-made piece-goods. Many of the weavers of Santipore, like all other weavers of Bengal unskilled in the use of machinery, have found it impossible to compete with the cheap fabrics of Manchester, and have consequently given up the loom for some other occupation."

INDIGO.

44. The outturn of indigo was unusually large, and although prices were low, averaging, according to the customs return, only Rs. 220 per maund, against Rs. 275 in 1879-80, and Rs. 200 in 1878-79, the total value of the trade from Calcutta was Rs. 84,44,755 above that of 1879-80, and Rs. 60,36,580 above that of 1878-79.

48. The result of the year's traffic is a surplus of imports over exports to the extent of 6,264 maunds. In 1879-80 the surplus amounted to 2,685 maunds, but the figures of 1878-79 showed a deficit of imports amounting to 413 maunds.

Quantity not exported before the close of the year.

JUTE, RAW.

49. There was an active demand for raw jute for consumption in the local mills; but the exports by sea show a falling off of 12,08,543 maunds, as compared with 1879-80; and it is explained that the manufacturers of Dundee found it impossible to work remuneratively with raw

jute at the high rates which prevailed during the early part of the year, and which indeed continued until it was known that the fears which had been entertained that the 1880 crop would prove a small one, were groundless. The outturn of the jute crop is reported to have been good in the Dacca Division, but such was not the case in Northern Bengal, where the excessive rains in June and July did some injury, and the outturn of the Rungpore district is said to have been poor both in quantity and quality.

50. The total quantity of raw jute imported into and exported from Calcutta, month by month, during the past three years, is shown in the following statement :—

51. The decrease of 3,69,247 maunds in the quantities carried by country boats, as compared with 1879-80, is due to the diversion of the trade to the Northern Bengal State Railway. The increase of 2,92,057 maunds imported by road routes was obtained from the Baraset sub-division of the

24-Pergunnahs, where the cultivation of jute is increasing. The decrease of 6,29,961 maunds in the quantities carried by rail is partly due to unfavourable demand and partly to the poor crop in Northern Bengal. The decrease of 1,40,887 maunds in the supply carried by inland steamers is due to the gradual diversion of the trade to the railway in preference to rivers.

52. The different districts from which jute was largely imported into Calcutta are shown below, as compared with the quantities taking the rail:—

55. Regarding the jute trade of Serajgunge, the Collector, Mr. Clay, writes as follows:—

“A resident well qualified to give an opinion—Mr. A. McDonell, Manager of the Steam Mills—thinks that eight or nine years back it was 40 per cent. better, and very good reasons can be given for this. The number of Europeans who have engaged in the trade has increased, and their tendency is to regulate their dealings rather by the home than the Calcutta market, while the native dealers trade in the hope of profits in the Calcutta market. Therefore, as the Serajgunge market assimilates itself to the Calcutta market, natives retire and fall back on their depôts on the inland rivers, some of which are rising in importance.”

56. The falling off in the imports from Naraingunge is due to a large quantity of jute having been sent by steamer and brigs to Chittagong for shipment to the United Kingdom.

57. The following statement shows the railway stations from which jute was forwarded in large quantities during the past three years:—

62. The surplus of imports over exports amounted during the past year to 22,97,699 maunds against 19,34,423 maunds in 1879-80 and 23,02,782 maunds in 1878-79.

Quantity not exported before the close of the year.

GUNNY BAGS.

63. The good harvests throughout the country had the effect of creating a large local demand for gunny bags, and the export to foreign countries from Calcutta shows therefore a considerable falling off (Rs. 4,28,509 in value) as compared with 1879-80. The manufacture of gunnies is an important article of industry in Northern Bengal. In the Serajgunge sub-division gunnies are manufactured at the steam mills for exportation to all parts of the country.

Imports by internal routes 64. The import trade of Calcutta in gunny bags during the past three years has been—

According to measurement, the year's traffic was 77,311,600 yards against 53,129,000 yards in 1879-80 and 45,305,760 yards in 1878-79. The gross total of the exports from Calcutta accordingly amounts to 85,030,665 yards, against 61,477,910 yards in 1879-80 and 54,731,040 yards in 1878-79. Deducting from this 1,037,850 yards imported from the interior, and allowing

2,000,000 for the Calcutta consumption, we get as the outturn of manufacture in Calcutta 85,992,815 yards, which equals 10,74,910 maunds, at about 80 yards to a maund, against 62,496,204 yards (7,81,201 maunds) in 1879-80 and 55,612,230 yards (6,95,153 maunds) in 1878-79.

FOOD-GRAINS.

76. A marked feature of interest in connection with the trade and commerce of Bengal during the year 1880-81 lies in the low prices of food-grains and the accumulation of stocks in the interior in consequence of abundant harvests throughout the country. The local reports all draw prominent attention to this sudden cheapening of the food supplies. There is reason to believe that to meet the abnormal demand which had sprung up during the past two or three years, and to reap the full benefit of the high prices which accompanied it, the area of food-grain cultivation in Bengal had been to some small degree extended. But during the past year the demand from other parts of India declined, the harvest throughout the country having been excellent, and as a consequence prices fell to a point even below that at which they stood before the famine demand at Madras.

77. Complaints of the low prices of rice have been general among the cultivating classes, and in many cases the payments of the rent have been seriously influenced by the reluctance of cultivators to sell their crops at the low prevailing rates. This difficulty has been felt by Government in its own khas estates, and in the administration of estates under the Court of Wards. The following statement is made in the report of the Collector of Mymensingh:—

“Indeed, curious as it may appear, there are instances in which ryots who had stocks of rice preferred to get loans of cash to pay their rent rather than sell any of their stock, in the hope, I presume, that prices would soon rise again and more than recoup them for their cash loans.”

78. Similarly the Collector of Backergunge reports that the abundant harvest and the absence of any demand from Calcutta so affected the market that the best sort of rice could be had at 30 seers the rupee. The Collector of Tipperah observes that the price of rice having fallen abnormally low, the cultivators have not parted with their stocks to the same extent as usual. Again, the Collector of Noakholly remarks that the export has fallen off greatly, that all granaries are full, and that cash rents are hard to collect.

79. The plentiful supply of the year resulted, however, in a general increase in exports. The statistics show that there was an aggregate increase of 69,32,809 maunds in the importation of food-grains into Calcutta during 1880-81 as compared with 1879-80, and of 51,44,403 maunds as compared with 1878-79. In the export trade there was an increase of 73,30,588 maunds as compared with 1879-80, and 45,70,543 maunds as compared with 1878-79. The following abstract exhibits the total trade, import and export, under each item of food-grains separately during the past three years:—

81. It will be seen that in the case of wheat the average price for the whole presidency during 1880 was 15·50 per cent. and in the case of barley 24·29 per cent. lower than that ruling in the previous three years. The price was lowest in Behar.

82. In the case of rice the fall in price was even more marked. In the price of good rice the average reduction amounted to 31·55 per cent. and in that of common rice to 37·60 per cent. The falling off was most marked in the following districts:—

93. The Collector of Customs remarks that England continues to take by far the largest supply (3,131,061 cwt.), but nearly all countries have shared in the increase. He adds that the noteworthy features of the trade during the year are the enormous expansion of the trade with France, the development of a direct trade with Holland, and the resumption of shipments to Malta after a cessation of two years.

94. The quantity of wheat not exported before the close of the year is 15,66,138 maunds, against 14,33,906 maunds in 1879-80 and 11,52,774 maunds in 1878-79.

GRAM AND PULSE.

95. The principal staples comprising the trade in pulses are *mutter*, *khessari*, *mushuri*, *maskalai*, *moog*, *boot or chhola*, and *urhur*. There was a falling off in the exports of gram to foreign ports from Calcutta to the amount of over 100,000 cwt. or six lakhs of rupees in value. It is observed, on the other hand, that the shipments from Bombay increased to 91,000 cwt. from 19,000 cwt. in 1879-80. The bulk of the produce in both cases goes to Mauritius, and it has been ascertained on enquiry that the diversion of the traffic from Calcutta to Bombay is due partly to the fact that freight is lower from Bombay, and partly to the alleged superiority of the Bombay produce.

96. The total quantity of pulses of all sorts imported during the past three years, was—

102. After deduction of the exports from the imports there remains 11,25,482 maunds, against 9,96,144 maunds in 1879-80 and 8,31,418 maunds in 1878-79.

RICE AND PADDY.

103. The abundant rice crops throughout the country resulted in a large increase in the exports both to foreign and Indian ports, amounting to no less than 66·4 per cent. over the exports of 1879-80. The total sea-borne exports from Bengal were 1,35,16,257 maunds, against 91,79,871 maunds in 1879-80 and 1,26,86,312 maunds in 1878-79.

106. The quantities carried by country-boats show an increase of 31,37,540 maunds as compared with 1879-80, and of 13,58,611 maunds as compared with 1878-79. The imports by road were 2,95,613 maunds in excess of those of the previous year and only 34,160 maunds over those of 1878-79. The East Indian Railway returns show a decrease of 3,23,159 maunds as compared with 1879-80 and of 11,97,926 maunds as compared with 1878-79. The Eastern Bengal Railway returns show an increase of 4,26,397 maunds, over the figures of 1879-80 and of 1,90,319 maunds over those of 1878-79, and the Northern Bengal State Railway an increase of 3,07,460 maunds and 2,73,736 maunds respectively. The sea-imports were less by 1,83,845 maunds than those of 1879-80, but they show a slight increase (85,184 maunds), as

compared with 1878-79. The different districts which contributed largely to the trade are—

121. Notwithstanding the high rates offered in the Calcutta market, Durbhunga and North-Western hide was very scarce during several months of the year, when the traffic by the railway exhibited a large falling off. The Behar supply consisted of 1,483,898 pieces from the Patna Division, and 504,911 pieces from the Bhagulpore Division. The details for Bengal are as follows:—

SALTPETRE.

149. The demand for saltpetre has not been largo, and the outturn was indifferent. In consequence the total value of the export trade with foreign ports shows a decrease of Rs 11,82,951 as compared with 1879-80, and Rs. 1,09,262 as compared with 1878-79.

150. The following statement shows the quantities of saltpetre imported into Calcutta during the past three years:—

152. The condition of the Behar trade in saltpetre is thus explained by the Commissioner of the Patna Division:—

“The manufacture of saltpetre was in a depressed state in the early part of the year, owing to the introduction of the new Inland Customs rules into the Division, but since the reduction of the fees to the former low rate, the manufacture has again begun to revive. At the commencement of the cold weather a determination was evinced by the Noonyahs not to take out licenses for the manufacture of saltpetre, and the strike continued to the end of December. The high fee (Rs. 2) for a license to manufacture crude saltpetre, the inquisitorial visits made by officers of the Customs Department, and the zeal with which they prosecuted their enquiries into alleged and petty cases of illicit manufacture of salt, combined to prevent the Noonyahs from taking out licenses. Gradually, however, many of the Noonyahs were compelled by want to give way, while in some instances the zemindars consented to let out the right to collect saline earth at largely reduced rates; and, as I said above, the introduction of the old license fee (four annas) served to revive the industry.”

153. The railway stations which despatched 10,000 maunds of saltpetre and upwards are:—

SILK—RAW.

170. There was a good demand for Bengal silk in European markets during the past year. The total quantities of raw silk imported into Calcutta during the past three years are shown below:—

					1878-79.	1879-80.	1880-81.

171. The manufacture in Midnapore is reported to be on the decline. The outturn of the silk filatures in Howrah, Hooghly, and Burdwan has been small. In Beerbhoom the industry is described as being in a very depressed state. The outturn of silk in Moorshedabad was indifferent, and the Collector remarks as follows:—

“It is still declining, and will, I am afraid, go on declining, except when there is a failure in Europe. It is not by any means certain that silk made here under European management will be able to find a remunerative market. The silk spun at country filatures is so coarse and uneven, that it is useless for the European market, but is in demand for country looms weaving coarse cloth, a fact which keeps up the price of cocoons, and so prevents European firms reducing their expenditure as regards cost of raw material.”

172. Silk is still extensively manufactured in Rajshahye, though it is said that the manufacture in this district also is declining.

173. The railway stations which despatched silk largely during the year are Damookdia on the Northern Bengal line (6,608 maunds), Azimgunge (3,348 maunds), Mooraroe (2,148 maunds), and Ahmudpore (905 maunds).

174. Of the river marts those supplying 500 maunds of silk and upwards are Ghattal (2,578 maunds), Tumlook (1,469 maunds), Midnapore (795 maunds), and Oolooberiah (568 maunds).

175. The quantity of silk exported from Calcutta by sea during the past three years is shown in the following statement:—

SUGAR.

177. The sugar trade of Calcutta with foreign ports is unable to bear up against the strong local demand, and the total value of the traffic has gradually declined from Rs. 68,52,573 in 1876-77 to Rs. 1,63,200 in 1880-81.

180. The Commissioner of the Presidency Division states that the manufacture of sugar from the juice of the date-palm in Nuddca is on the increase, being found to be sufficiently remunerative. The sugar crop of Jessore is said to have been remarkably good, and the outturn of the crude sugar was larger than during the preceding year, and prices were well sustained. In Northern Bengal sugarcane is grown to a considerable extent. One of Thomson and Mylne's mills has been set up at Malanchi in Rajshahye, and it is thought that there will be a rapid increase in the cultivation of sugarcane in this district. The development of sugar manufacture in Behar was prominently mentioned last year. In Gya a great impetus has been given to the manufacture of *goor* from sugarcane, not only by the more extensive introduction of the Behcea sugar-mill, but by the facilities for export afforded by the Gya Railway. The Commissioner of Bhagulpore also states that the sugar industry is increasing in that Division.

182. The total quantity of sugar exported from Calcutta is 2,46,845 maunds of refined and 3,19,323 maunds of unrefined sugar, of which 1,73,940 maunds of refined and 2,94,404 maunds of unrefined sugar were carried by internal routes, and the remainder, 72,905 maunds of refined and 24,919 maunds of unrefined sugar, was exported by sea. The distribution of the sea-borne trade is shown in the following table:—

183. If two and a half maunds of unrefined sugar be taken to equal one maund of refined sugar, the total of the year's traffic in unrefined sugar is 17,12,435 maunds under imports and 9,36,435 maunds under export, leaving a balance of 7,76,000 maunds not exported before the close of the year, against a surplus of 3,98,724 maunds in 1879-80 and 1,33,925 maunds in 1878-79.

TEA, INDIAN.

184. The Customs returns of the Calcutta port show an increase of 7,963,764 lbs. in the quantity of Indian tea exported to foreign ports as compared with 1879-80. The average rate of value, however, shows a falling off to the extent of 21 per cent. The Commissioner of the Rajshahye and Cooch Behar Division writes on the subject as follows:—

“The tea cultivation, though still in its infancy in Julpigoree, is progressing. There were 47 gardens at work in the year under report against 37 in the preceding year. The total outturn of tea was 817,765lbs. against 429,580lbs. in the previous year. The tea produced in Darjeeling exceeded the outturn of the previous year. But the market was so bad that the teas fetched poor prices, especially the coarser kinds. Many gardens suffered a loss, and few made a profit on the year's working.”

185. The weather in Chittagong was favourable for tea, and the Magistrate reports that the quantity manufactured was larger than during previous year. The Commissioner of Chota Nagpore writes:—

“There has been an increase in the number of gardens, there being one garden started in the hills to the west of Manbhoom, and two more in Lohardugga. There were 210,866lbs. produced in Lohardugga and Hazaribagh against 147,644lbs. in 1879-80, the yield this year being on an average 125lbs. per acre in Hazaribagh and 209lbs. in Lohardugga against 89lbs. in Hazaribagh and 109lbs. in Lohardugga in the former year. There were 16,800lbs. in Lohardugga produced from immature plant, which makes the average from mature plants more than that given above. The yield was especially good, and the tea gardens under bearing could all have paid well if it had not been for the low prices of tea.”

186. The importation of tea into Calcutta during the past three years, is—

195. Tobacco is largely cultivated in the sub-division of Baraset and in Nuddea, the tobacco grown in Nuddea being mainly the variety known as *hinglee*, which is already largely used in making cigars in Calcutta, and which will, the Commissioner believes, as its cultivation and curing improves, become a very marketable commodity. In Rungpore the crop, though much injured by hail in March and December, was abundant, but inferior in quality. In Julpigoree the crop was a fair one, especially in the Dooars. Formerly tobacco was chiefly purchased in Rungpore by the Mugh traders, but this year it was largely purchased by the Oswal Jains, and sent to Calcutta by the Northern Bengal State Railway. Domer, on the railway, is now an important place of business, and it has attracted a great part of the population of Ghoramara, which is fast being deserted as a trading place. There is a branch firm of Ralli Brothers of Calcutta at Domer, who have large dealings in jute and tobacco.

196. The marts from which the imports by country boats were largest during the year are Bhuddressur (64,662 maunds), Patna (16,764 maunds), Nychatty in 24-Pergunnahs (10,447 maunds), Sookchur in 24-Pergunnahs (9,568 maunds), Rungpore (9,520 maunds), Boidyabatty (7,580 maunds), Hooghly (6,712 maunds), and Dinagapore (6,388 maunds).

197. The railway stations which despatched tobacco largely during the year are Rungpore (81,522 maunds), Kowneah (72,865 maunds), Domer (38,367 maunds), Nilphamaroe (20,959 maunds), and Goalundo (18,689 maunds). The quantity shipped from Serajgunge by the steamers of the Eastern Bengal Railway is 25,758 maunds.

198. The largest supplying marts on road routes are Baraset (81,009 maunds), Ranaghat (12,775 maunds), and Bongong (16,000 maunds).

INLAND TRADE OF CHITTAGONG.

201. The total weight of goods registered at Chittagong in connection with its inland trade carried by country boats during the past three years, was as follows:—

				1878-79.	1879-80.	1880-81.
				Mds.	Mds.	Mds.
Imports	17,52,488	18,30,589	18,17,805
Exports	3,30,927	3,24,190	3,76,389
Total	20,92,415	21,54,779	21,94,194

202. The increase in the quantities registered during the past year was 1.83 per cent. as compared with 1879-80, and 4.86 per cent. as compared with 1878-79. In the import trade the figures under cocoanuts, pulses, paddy, hides, oils, spices, firewood, and bamboos showed a marked increase; while in the case of rice there was a decrease of 1,93,252 maunds as compared with 1879-80, but an increase of 2,46,819 maunds as compared with 1878-79. Similarly, the imports of unrefined sugar were 22.85 per cent. below the trade of 1879-80, but 36.98 per cent. above those of 1878-79. Under exports the increase shown above was due to larger despatches of raw cotton, piece-goods, salt, timber, and bamboos. The total value of the inland trade during the past three years is shown below, as compared with the sea-borne trade.

		Import.	Export.	Total.
		Rs.	Rs.	Rs.

	1880-81	73,59,636	69,81,291	1,43,40,927

203. The money value of the trade during the year under review was affected by the low prices of food-grains ruling in Bengal; but notwithstanding this circumstance there still remains evidence of a large and progressive increase in the trade of the Chittagong port. A brief analysis of the trade in all the principal articles of merchandise is given below:—

204. *Caoutchouc*—Is produced in the Hill Tracts of Chittagong. The total export to Calcutta by sea-going vessels was 675 cwt., or 919 maunds, valued at Rs. 73,260, as compared with 734 cwt., or 1,054 maunds, valued at

Rs. 66,072 in 1879-80, and 913 cwt., or 1,243 maunds, valued at Rs. 55,282 in 1878-79. The increase during the past year was in value, not in quantity, which remained nearly stationary.

205. *Cotton, raw*.—The Chittagong cotton goes for the most part to Narain-gunge, where it is baled in press mills for despatch to Calcutta, a small quantity only being retained for local consumption. The quantity of raw cotton shipped for Naraingunge from this port during the past three years was—

			By country boats.	By sea going vessels.	Total.
			Mds.	Mds.	Mds.
1878-79	10,416	10,416
1879-80	605	17,389	17,994
1880-81	4,108	12,925	17,033

It is said that the cotton crop was indifferent in the Hill Tracts during the past year.

206. *Cotton twist and yarn, European*.—The total value of the imports into Chittagong amounted to Rs. 1,81,931 against Rs. 1,22,234 in 1879-80 and Rs. 1,13,263 in 1878-79.

207. *Cotton piece-goods, European*.—The trade has largely expanded, the value of imports amounting to Rs. 17,81,466 against Rs. 13,99,815 in 1879-80 and Rs. 9,42,000 in 1878-79. The principal descriptions of piece-goods imported to this port are grey and white jaconets, mulls, madapollams, dhotees and sarees, and white lappetts. The total value of goods carried by country boats to the interior of Chittagong amounted to Rs. 1,75,989 during the past year, against Rs. 84,003 in 1879-80 and Rs. 37,004 in 1878-79.

208. *Jute, raw*.—Jute is imported from Naraingunge for shipment to the United Kingdom. The trade during the past three years was as follows:—

209. The exports of the past year would have been larger had not a British ship loaded with 44,732 cwts. of jute been wrecked as it was leaving the river.

210. *Gunny-bags*.—The total quantity of gunnies imported into Chittagong in connection with its coasting trade was 687,470 bags, valued at Rs. 1,59,704, against 900,811 bags, valued at Rs. 1,93,371, in 1879-80, and 401,760 bags, valued at Rs. 98,439, in 1878-79. Previous to the year 1880 it was the practice to pass as imports all bags landed from one vessel for re-shipment under shipping bill for Burmah, but this practice was discontinued during the past year.

211. *Rice and paddy*.—The import trade in these articles carried by country boats during the past three years is shown below, as compared with the export to foreign ports:—

				Imports into Chittagong by country boats.		
				1878-79.	1879-80.	1880-81.

It is explained that the exports to Southern India were largely increased during the year owing to the dulness of the Ceylon market.

214. *Hides*.—The total of the export hide trade with the coast ports rose from 17,519 pieces, valued at Rs. 32,979, in 1878-79, and 53,165 pieces, valued at Rs. 1,10,486, in 1879-80, to 69,606 pieces, valued at Rs. 1,59,356, in 1880-81. The number of hides carried to Calcutta and Naraingunge was 66,267 pieces during the past year.

215. *Oils*.—According to the coasting trade returns the value of oils imported was Rs. 1,64,990, a decrease of Rs. 41,236 as compared with 1879-80 and of Rs. 65,826 as compared with 1878-79. The falling off is to be observed in the supply of earth oil from Rangoon, which is being displaced by cheap kerosine oil from Calcutta, and mineral oil from Arracan. Coconut-oil from Cochin also showed a decrease, and it is said that in point of quality the oil manufactured in the Chittagong Jail much surpassed the ordinary Cochin and Ceylon oil. The import of oils by country boats amounted to 2,317 maunds, against 614 maunds in 1879-80 and 816 maunds in 1878-79. Out of this quantity Calcutta supplied 2,100 maunds, against only 75 maunds in 1879-80. This was almost entirely kerosine oil for consumption in Noakholly, Tipperah, and Chittagong.

216. *Salt*.—The total weight of salt imported from Liverpool was 12,699½ tons, or 3,45,711 maunds against 11,475¼ tons, or 3,12,382 maunds, in 1879-80. The quantities of salt exported by country boats during the past three years are shown below:

				1878-79. Mds.	1879-80. Mds.	1880-81. Mds.
Noakholly	24,211	37,544	34,512
Dacca (Naraingunge)	43,454	...	400
Chittagong	1,34,034	1,46,839	1,56,564
Other districts	1,518	6,724	11,211
Total	2,03,247	1,91,107	2,02,687

In addition to the above, 19,327 maunds were carried to Naraingunge by sea-going vessels, against 52,750 maunds in 1879-80.

217. *Sugar, refined and unrefined*.—The quantities imported into Chittagong by country boats during the past three years, were—

				1878-79. Mds.	1879-80. Mds.	1880-81. Mds.
Refined sugar	2,590	2,277	3,801
Unrefined sugar	14,451	25,657	19,795

In addition to the above supply the coast trade returns show imports of sugar and sugarcandy to the amount of 7,483 cwt., or 9,185 maunds, valued at Rs. 1,06,346, against 3,482 cwt., or 4,739 maunds, valued at Rs. 59,399, in 1879-80, and 2,175 cwt., or 2,960 maunds, valued at Rs. 39,020, in 1878-79.

218. *Tea, Indian*.—According to the coast trade returns the exports of tea from Chittagong amounted during the past year to 736,817lb, or Rs. 5,70,780 in value, against 688,610lb, valued at Rs. 6,14,228, in 1879-80, and 607,388lb, valued at Rs. 5,75,182, in 1878-79. The greater part of the supply was

shipped for Calcutta, the quantity forwarded showing an increase of 48,207lb as compared with 1879-80. The quantity of tea shipped direct to the United Kingdom was only 265lb, against 1,480lb in 1879-80 and 86,265lb in 1878-79.

219. *Tobacco*.—The quantity of tobacco carried to Chittagong by country boats was 2,686 maunds against 2,131 maunds in 1879-80 and 7,037 maunds in 1878-79. The quantity brought by sea-going vessels was 1,203,923lb, valued at Rs. 1,06,096, against 1,039,508lb, valued at Rs. 86,476, in 1879-80, and 52,036lb, valued at Rs. 3,477, in 1878-79. These fluctuations are mostly due to changes in classification, and in both cases Naraingunge was the chief supplier. The total quantity of tobacco shipped from Naraingunge to Chittagong during the past three years is as follows:—

				IMPORTS INTO CHITTAGONG FROM NARAINGUNGE.		
				By country boats.	By sea-going vessels.	Total.
				Mds.	Mds.	Mds.
1878-79	5,886	5,886
1879-80	1,751	12,816	14,567
1880-81	1,411	14,897	16,308

The exports of tobacco to foreign ports amounted to 13,574lb against 28,032lb in 1879-80 and 5,924lb in 1878-79. The quantity of the export to coasting ports was 100,910lb, valued at Rs. 13,516, against 43,075lb, valued at Rs. 5,738, in 1879-80, and 47,913lb, valued at Rs. 7,197, in 1878-79.

221. The decrease in the total trade was Rs. 15,77,498 as compared with 1879-80, and Rs. 15,84,503 as compared with 1878-79. It will be seen, however, that the value of imports increased, while that of exports decreased, in all the ports. The falling off in the export was due to the cessation in demand for grain from abroad, and to the cheapening of prices consequent on the good harvest. The decrease of Rs. 6,06,194 in the value of exports from Balasore was due to the fall in prices. There was a decrease of 19,737 maunds only in the quantity of rice exported, but the difference in value was nearly 12 lakhs. The exports from Balasore were larger in the past year than they had ever before been, and the large increase of three lakhs in private specie sent to Calcutta for trade is worthy of note. In Cuttack the decrease in the value of exports amounted to Rs. 12,20,513 as compared with 1879-80, and was due to short shipments of rice to Mauritius and Colombo; but the total customs duty (Rs. 53,471) realized on this article was still larger than in any previous year except 1879-80. The decrease in the Cuttack returns is also in some measure due to the diversion of the trade to the Chandbally route, and the Collector states that much of the Cuttack trade now passes through that port.

222. The following statement shows the direction of the trade of the Orissa ports during the past three years :—

223. The share of Calcutta was 96·53 per cent. of the import trade, but only 71·45 per cent. of the export trade. The trade with other Indian ports was only 10·43 per cent. of the whole in 1880-81 against 17·6 per cent. in 1879-80. Exports to foreign ports were 18·07 per cent. against 27·8 per cent. in 1879-80.

224. The quantities and values of the principal staples imported into Orissa are shown in the following table :—

225. *Apparel*.—The total value of these goods was Rs. 2,79,924, against Rs. 1,50,797 in 1879-80 and Rs. 90,907 in 1878-79. The imports last year into Balasore alone were valued at Rs. 2,51,097, the whole being sent from Calcutta.

226. *Cotton twist and yarn*.—The quantity imported was *2,373,838lb (28,849 maunds), against 1,779,973lb (21,631 maunds) in 1879-80 and 1,461,223lb (17,758 maunds) in 1878-79. It is said that the native weavers, to preserve their trade from extinction, are compelled to use the finer twist of English manufacture in preference to the coarser country-made thread.

227. *Cotton piece-goods*.—The total value of cotton piece-goods imported was Rs. 14,00,520,† against Rs. 6,87,123 in 1879-80 and Rs. 8,00,420 in 1878-79. Comparing the figures with 1879-80, the increase under Balasore was Rs. 5,75,459, and under Cuttack Rs. 1,30,136.

The Collector of Cuttack writes:—

“The European machine-made piece-goods, which are generally superior in texture and comparatively cheaper in value, are further recommended by their decency and durability, and are therefore extensively used in this district by almost all classes of the people. They are imported from Calcutta by two lines of steamers, calling weekly at False Point and Chandbally, and are centred at Cuttack, whence they are distributed to the interior of the district, to the Tributary Mohals and Sumbulpore, by the river Mahanuddy, and to Pooree, Khorda, Banpore, Berhampore, and Ganjam by land. But in the absence of any records of imports *via* Chandbally, and the means of ascertaining the inland traffic, it is, as stated in my last year's report, impossible for me to give a fair estimate of the amount of trade that is carried on in this manner.

Bombay machine made piece goods, chiefly dhooties, though selling at a higher rate than the Manchester cotton goods, are preferred by the cultivating classes of the people owing to their thickness and durability, and the trade is gradually improving. It is now used at about 3 to 25 in proportion to the European piece-goods.”

228. *Gunny bags*.—The number of bags imported was 510,076, against 1,007,772 bags in 1879-80 and 891,902 bags in 1878-79, the decrease being due to the contraction of the rice trade.

229. *Metals*.—The total quantity of metals imported was 24,816 cwt. (33,777 maunds), against 33,575 cwt. (45,631 maunds) in 1879-80 and 36,485 cwt. (49,660 maunds) in 1878-79, the money value being Rs. 8,23,343 in 1880-81, Rs. 14,61,152 in 1879-80, and Rs. 13,26,571 in 1878-79.

230. *Provisions*.—*Ghee*.—The import of ghee was comparatively large during the year, namely 283,598lb (3,446 maunds), against only 86,106lb (1,046 maunds) in 1879-80 and 30,859lb (375 maunds) in 1878-79, mostly sent from Madras and its subordinate ports.

231. *Opium*.—The total value of the import trade in opium was Rs. 2,57,520, against Rs. 42,120 in 1879-80 and Rs. 2,01,600 in 1878-79. The decrease in 1879-80 shown above was only nominal, as the opium imported for the Cuttack district by the Government vessel was excluded from the trade statistics of that year.

232. *Spices*.—The decrease in the importation of spices was 170,865lb (2,077 maunds) as compared with 1879-80, but there was an increase of 110,096lb (1,337 maunds) as compared with 1878-79.

233. *Betelnuts*.—The total quantity imported was 3,182,835lb (38,680 maunds), against 3,732,112lb (45,355 maunds) in 1879-80 and 3,371,942lb (40,978 maunds) in 1878-79.

234. *Tobacco*.—The import trade in tobacco was—

			1878-79.	1879-80.	1880-81.

					1,39,609

There was thus an increase in quantity (55,734lb), but a decrease in value (Rs. 37,629) as compared with 1879-80.

235. *Treasure*.—The amount of private specie imported was Rs. 4,83,297, against Rs. 8,28,891 in 1879-80 and Rs. 11,40,129 in 1878-79.

* Of this quantity 534,190lb were Indian twist.

† Of this Rs. 16,945 worth of goods were of Indian manufacture.

236. The quantity and value of the principal articles exported from the Orissa ports during the past three years, are—

The chief falling off in the rice business was at the Cuttack port, and the Collector explains it thus:—

“Rice is the only article which is exported in abundance from this port to Mauritius and Colombo, and yields the main customs revenue. But last year the price of rice being cheaper at Calcutta, the merchants who have monopolized the rice trade of Cuttack, and who have their principal houses at Calcutta, at once stopped purchase in this district and exported only what they had already in their stock or what they had arranged for during the previous year.”

238. The main decrease in the exports of paddy occurred at Balasore. The Collector of the district writes:—

“The decrease in the export of paddy is only natural. It is only in times of great pressure of demand that the more cumbrous article is exported, and the export of paddy, which increased abnormally when the rice trade was marvellously brisk, is discontinued now that the trade rests in what we may hope is its normal condition.”

The distribution of the rice exports, port by port, during the past three years, was as follows:—
